

# See You Crawl

## Mercy Drive

There are some things that I can't face  
There are some dreams that I can't chase  
There is nothing that I can't face  
There is no dream that I can't chase There are people  
Who love to laugh at you  
See you fall  
See you crawl Find the words they say  
Take your game away  
See you fall  
See you crawl There are some who live above me  
And they think so little of me  
There is no one here above me  
It doesn't matter what you're thinking of me There are people  
Who love to laugh you  
See you fall  
See you crawl Find the words they say  
Take your game away  
See you fall  
See you crawl There are people  
Who love to laugh at you  
See you fall  
See you crawl Find the words they say  
Take your game away  
See you fall  
See you crawl See you crawl
