

# Right Kind of Crazy

## Secondhand Serenade

were just living our dreams, just living our dreams just doin what we please.  
getting drunk at graduation while the band plays how's it gunna be  
let's jump the gun eventually's for you and me,  
drivin all night drivin all night trying to get lost with you,  
hop right out to vegas and get lucky if it's what you want to do.  
ohhhh, places that i know  
buckle up and hold on tight, it's just a roller coaster ride, it can't be wrong to be the right kind of crazy,  
knowing never turn down a fight, and if it all ends tonight at least we were the right kind of crazy,  
care about anything unless we got everything we want, we don't care about the consequences as long as we  
remember that we were  
not that small as we always seemed to be, this world is ours, you see  
buckle up and hold on tight, this is a roller coaster ride, it can't be wrong to be the right kind of crazy, and  
knowin  
we'd never turn down a fight and if it all ends tonight, at least we were the right kind of crazy,
