Here Right Here

Sense Field

Radar's on, cruising low altitude
Just a few more miles 'til I elude
Enemy planes coming from foreign skies
With orders to demoralizeHolding hands in the underground
Everything's here right here
Everything's here right now
All that is, is what is nowWho am I without your photograph?
And the wind blows through this loveless craft
Dodging the ghosts, haunting these vacant skies
I've been out here so far
I've been out here so long, demoralizedHolding hands in the underground
The walls above us are coming downEverything's here right here
Everything's here right now
All that is, is what is nowHere right here
Everything's here right now
All that is, is what is nowWe could take over
We could take over
We could take over
We could take overHere right here
Everything's here right now
All that is, is what is now, everything
