

# Polaroid Picture

[Anna Rossinelli](#)

You have known me from the first day

I don't know you

I ... I can't remember you

I have seen you in a picture

You've seemed to me so familiar

I ... I can't remember youTell me you are with me, make me feel you're real

Cool my burning chest and melt my heart of steelLay your arms around me, hide me from the outside world

Say you will protect me there's no need to be afraid

They have told me many storys

She did hold me, saying sorry

I ... I want you back

Vainly I waited for a letter

Wish you had known how to do better

I ... Still want you backTell me you are with me, make me feel you're real

Cool my burning chest and melt my heart of steelLay your arms around me, hide me from the outside world

Say you will protect me there's no need to be afraid

A polaroid picture making my

Memory of what once

Used to be in the days so far away

A polaroid picture showing me

You and me it's fading like the

Memory that I used to have of youLay your arms around me, hide me from the outside world

Say you will protect me there's no need to be afraidTell me you are with me, make me feel you're real
