It's Me, It's You

Ross Lynch

I like the bass when it booms
You like the high end treble
I'm like the 99th floor
And you're coolin' street level
I like the crowd
Ra-ra-ra-rockin' it loud
You like the sound of hush hush
Hey! Keep it down
High tops, flip flops, Retro, Dance pop
We rock different ways
Beach bum, city fun, touchdown, home run
What can I say?
It's me (it's me) and it's you (it's you)
I know we're not the same
But we do what we do
It's you (it's you) and it's me (it's me)
And who says that we have to agree
'Cause I like what I like
And sometimes we collide
But it's me (it's me) and it's you (it's you)
I know we're not the same but we do what we do
You like going to the mall
I'm into video games
I like sleepin' 'til noon
You say dude that's so lame
I'm rollin' like a fast car
You're strumming guitars
I'm shooting for stars
Yeah I'm taking it far
High tops, flip flops, Retro, Dance pop

We rock different ways
Beach bum, City fun, touchdown, home run
What can I say?
It's me (it's me) and it's you (it's you)
I know we're not the same
But we do what we do
It's you (it's you) and it's me (it's me)
And who says that we have to agree

'Cause I like what I like
And sometimes we collide
But it's me (it's me) and it's you (it's you)
I know we're not the same but we do what we do
On-stage off-stage
We're gonna rock no matter what
Drum sticks guitar picks
It's you and me at the top
It's me, it's you
I know we're not the same
But we do what we do
It's you and it's me
And who says that we have to agree
It's me it's you
I know we're not the same
But we do what we do
It's you (it's you) and it's me (it's me)
And who says that we have to agree
Cause I like (I like) what I like (I like)
And sometimes we collide
But it's me (it's me) and it's you (it's you)
I know we're not the same
But we do what we do
