

# Through My Eyes

## Threat Signal

tear through the ashes of what still remains, the blood runs down my face  
Can't find the reason we're all left to waste, you must awaken

See through my eyes

I bleed to let myself know i'm alive, as you hide in denial  
break through the clouds and reach out to the sky, you must awaken

see through the lies, we're not far away

Chorus:

As we crawl to salvation the rest try to hold us down  
As they fall we separate from the hate that will bring us down

These lacerations they will reveal for the rest of my life  
These aggravations will not conceal till i die or we end this fight

Forget the words that they've said, it's all deceit in your head  
This life is more than just lies awake and see through my eyes
