Change Partners

å°•æž—æ¡‚

All of the ladies attending the ball
Are requested to gaze in the faces
Found on the dance cardsPlease then remember
And don't get to close to one special one
He will take your defenses and runSo we change partners
Time to change partners
You must change partners
AgainThis is how most of our ladies grew up
At the country club dances
They learned how to handle the boysGently but firmly they learned to say no
There were four more young men
Who were waiting in the color and the noiseSo we change partners
Time to change partners
You must change partners
AgainAll of the ladies attending the ball
Are requested to gaze in the faces
Found on the dance cardsPlease then remember and follow your list
'Cause the dear things get hurt
And the broken hearts make you feelSo we change partners
Time to change partners
You must change partners
Again
