

# Dread Is This Place

**Jonathan Boulet**

We're moving on from this ground  
I could have sworn you were around  
I lift my flag in these badlands  
You turn your back, we just made tracks

It's a problem and it's a threat,  
Going nowhere

People that are getting into your head  
There's no room there

This crap taste good  
Cos' they play it  
Now you're saying  
What they're saying

Things are going to change  
For you and me  
That's what they told  
Us to believe

They say their lies  
Straight to our eyes  
They turn their backs  
You pull an axe

---
