I'll Be Alright

Maya Buskila

Don't ever tell me now things could be the same
don't ever tell me how you'd forget a name
and do you really know how much I love
Have you heard the things I'm speaking of

Don't ever start to cry, swear and then your shame
don't ever wonder why you're the one to blame
it's a funny thing about our love
and it feels so real when you have given up

Chorus:
And I don't wanna be alone again without you by my side
but I can't cry it's not the end, I think it's time to not pretend
And if I see you there at home and when
she's always by your side
I'll be alright, I'll be alright

Don't ever turn to me, love and for away
don't ever try to see laughter, love and pain
it's a funny thing about our love
and it feels so real when you have given up

x3 Chorus:
And I don't wanna be alone again without you by my side
but I can't cry it's not the end, I think it's time to not pretend
And if I see you there at home and when
she's always by your side
I'll be alright, I'll be alright

Don't ever tell me now things could be the same....
