Tranquilize

William Control

Hey, little sister
Are you ready to dance in the dark?
Can you believe and defy death?
It's only skin and bones, blood in red
In this rotting fleshHey, little sister
Are you trapped in a life
Where you need a little something to kill time?
A short while till the blood runs red
And the sun wont shineHey, hey, hey
Come tranquilize
I'm willing death, come, please, call my name
We'll die in the sunsetHey, hey, hey
Come tranquilize
I'm willing, death, come, please, call my name
We'll play in the darkness
