Burning 4 You

Jon B.

Saying how I feel so deep inside
(Now girl)
You are somethin' special, don't you know
Treasure is mystery I find
(Now baby)
Girl for now we can take it slowIn the air outside I feel you
And you know just where you're goin'
Girl I need to have you're here right next to me
If you know just what to do
Then baby come I can show you
It's a different way with meMidnight fireside blazing bright
This candle's burning 4 you
Moonlight, it's late at night, it's cold outside
This candle's burning 4 youSaying how I feel so deep inside
We have something gentle, girl you know
Measure up the distance, can we find
(Out baby)
Just how far this thing could goOh, girl, it's like a natural high
I got a love I can't be denied
Hey girl, just give my love a try
And I won't let you downMidnight fireside blazing bright
This candle's burning 4 you
Moonlight, it's late at night, it's cold outside
This candle's burning 4 you
