

# I Thought I Had It Made (BBC In Concert)

## Dr. Feelgood

Sitting in a downtown discotheque  
Saw a cute little girl that stole my breath away  
Line of guys that had the eyes on her  
To my surprise she said 'I beg you Sir'  
I stay  
I thought I had it made  
Sat at a table for a couple of drinks  
Moving closer and she kissed my neck That's when I knew that I was in with a chance  
Records were a playing and she asked for a dance  
They played  
I thought I had it made We were a swinging to the moody blues  
Looked into my eyes I thought I blew a fuse  
Music stopped playing the lights went out  
Dropped my drink when I heard them shout  
It's a raid  
I thought I had it made  
Hey everybody take a look at me  
Didn't come to until a quarter past three Got no money couldn't put up the bail  
Judge said 'Son, I'm gonna keep you in jail.'  
I stay  
I thought I had it made  
Thought I had it  
I thought I had it made
