## Martina Topley-Bird

All move so fast here
No one can last here
Lucky for us, dear
Round and round we goDarling, the turn is resistance
Do you? I do
Forget how to follow your instinct
Do you? I doI will stay for this last transformation
From who we start it soon gets precarious
I will stay for this last transformation
Beauty and tragedy released in the endHere now we're kneeling
Now we're revealing
Purge every feeling
As we turn to dustBut don't get yourself into mischief
Do you, you don't, do you?
Together, whatever the distance
To you, I'll come to youI will stay for this last transformation
Flares and arcs will lead us out to sea
Far above you the stars light the heavens
Beauty and tragedy released in the endOut in the distance
Blue god encrypted
Phoenix persistent
Round and round we go
