Turn It On

Amber Lily

You're so on and off, can't keep the beat
Best friend can be worst enemy
But we're just gonna let it all go, oh oh oh
Don't have to compete
Both got that heat, let's switch it up
No jealousy, the spotlight's big enough for us bo-bo-both
So we're just gonna jump and clap
B-B-Bring it back, bring it back
And we'll dance forever, just slide and clap
You know where it's at, where it's at
You and me togetherLet's dance it off
Turn the music on
Let's dance it off
Turn the music on
Just turn it on
