

# Turn It On

Amber Lily

You're so on and off, can't keep the beat  
Best friend can be worst enemy  
But we're just gonna let it all go, oh oh oh  
Don't have to compete  
Both got that heat, let's switch it up  
No jealousy, the spotlight's big enough for us bo-bo-both  
So we're just gonna jump and clap  
B-B-Bring it back, bring it back  
And we'll dance forever, just slide and clap  
You know where it's at, where it's at  
You and me together Let's dance it off  
Turn the music on  
Let's dance it off  
Turn the music on  
Just turn it on
