

# Better Off Running

[Cris Cab](#)

years ago, I knew that I wasn't opened up  
I heard 'em all, talk about how this world was tough.  
I met a man, who told me how he lived it up  
he had a plan, to make the most and do what he loved don't let it pass you by  
live your life enjoy the ride  
how long you been taught to take your time  
but you know things'll always be the same...  
you'll be better off running  
you'll be better off running  
you'll be better off running wasn't hard, to understand where he was comin' from  
never disregard, all the time you have while you're young  
he spoke about, the time he was broke and fallin' into love  
but never doubt, that he would still joke and have his fun don't let it pass you by  
live your life enjoy the ride  
how long you been taught to take your time  
but you know things'll always be the same...  
you'll be better off running  
you'll be better off running  
you'll be better off running
