Timing Is Everything

Garrett Hedlund

When the stars line up
And you catch a break
People think you're lucky
But you know its graceIt can happen so fast
Or a little bit late
Timing is everythingYou know I've had close calls
When it could've been me
I was young when I learned just how fragile life can be
I lost friends of mine
I guess it wasn't my time
Timing is everythingAnd I could've been the child that God took home,
And I would've been one more unfinished song
And when it seems a rhyme is hard to find
That's when one comes along
Just in timeI remember that day
When our eyes first met
You ran into the building to get out of the rain
Cause you were soaking wet
And as I held the door
You wanted to know my name
Timing is everythingAnd I could've been another minute late
And you'd never would've crossed my path that day
And when it seems true love is hard to find
That's when love comes along
Just in timeYou can call it fate
Or destiny
Sometimes it really seems like its a mysteryCause you can be hurt by love
Or healed by the same
Timing is everythingIt can happen so fast
Or a little too late
Timing is everything
