Tongue Tied

Jakil

I shouldn't feel so down.
I know, Oh well.
Think I'm going out of my mind,
under, her spell.
I'm caught up tonight.

She takes me out of sight,
for sweet talks, on dear life.
She's never been the one to play nice,
my lips, her bite,
it brought me to life.

Come to my party, chills in my body, don't tell me there's something wrong.

Girl you got it so right, got me tongue tied.
Tongue tied in love.
Girl you got me so high, got me tongue tied.
Just love me, love me, love me, love me, let me down.

She came down to motel,
and we move, so well.
Entangled in the heat all night.
Your space, it's our time.
On fire tonight.

Come to my party, chills in my body, don't tell me there's something wrong.

Girl you got it so right, got me tongue tied, tongue tied in love.
Girl you got me so high, got me tongue tied.
Just love me, love me, love me, love me, let me down.

Come to my party, don't tell me there's something wrong.
You're taking me over, come closer yeah.
Come to my party, don't tell me there's something wrong.
Why do I, done it all, girl you got me so tongue tied
(come to my party, don't tell me there's something wrong)
Tongue tied in love.
You know you got me right, and I tell you all the time,
(come to my party, don't tell me there's something wrong)

you know, hey,

Girl you got me so (so high) so high,
(tongue tied) tongue tied (tongue tied in love)
Girl you got me so high, got me tongue tied.
Just love me, love me, love me, love me, let me down.
Girl you got it so right, got me tongue tied.
Tongue tied in love.
Girl you got me so high, got me tongue tied.
Just love me, love me, love me, love me, let me down.

Tongue tied.
Tongue tied in love.
