

Way Back Home (Club Version feat. Duane Harden)

Bag Raiders

rain pours down over a city
night has fallen like a stone are you gone or are you with me
in my heart i'll never know if i close my eyes i'll see you
hear your footsteps in the rain in my dream i'll never find you
but i'll hear you call my name oooooooooooooooooooooohh has i tread through crowds of people
trying to keep from looking back got your sense on something passing
and it sends me off my track do i find you will i follow
to forever and a day
i can feel you in the distance
but you seem so far away what if i just can't find my way back home
what about all the things i just don't don't know
what if i just can't find my way back home
would you be there to show me where to goooooooooooooooooooooohhh what if i just can't find my way
back home
what about all the things i just don't don't know
what if i just can't find my way back home
would you be there to show me where to go
x2
