

Make Way for a Better Man

[Willie Nelson](#)

Give me talkin' now you tried to make her happy you couldn't make her happy
 Make way for a better man than you
You tried your brand of lovin' she couldn't stand your lovin'
 Make way for a better man than you
 I held back cause you and I were friends
 But old buddy this is where our friendship ends
I'm takin' over now those signals she keeps sendin' means your romance is endin'
 Make way for a better man than you
 [guitar - steel]
Those fancy words you told her were not enough to hold her
 Make way for a better man than you
I guess you're in your lockout you came to back and struck out
 Make way for a better man than you
 I held back cause you and I...
 Make way for a better man than you
