

# Paradise (On Earth)

Cris Cab

I wonder if I take you there, would you believe in fairy tales, oh  
A place where no one feels the pain, living without suffering  
The roads are paved by loving hands  
Energy from turning friends, oh  
So won't you open up your eyes  
So you can see this paradise, oh I won't die to get to mine  
I want this thing alive  
I'll take my paradise on earth, yeah  
I'll make my paradise on earth, oh, oh  
I'll make my paradise on earth  
I'll take my paradise on earth  
I'll make my paradise on earth It's easier when you believe  
Some people rather misery  
But I prefer a place you and I are free  
The whole world sings in unity I won't die to get to mine  
I want this thing alive  
I'll take my paradise on earth, yeah  
I'll make my paradise on earth, oh, oh  
I'll make my paradise on earth  
I'll take my paradise on earth  
I'll make my paradise on earth And all of the world, you were standing around  
You couldn't smile, cause trouble's all you find  
So now that you're around, and there's no going back  
I'll save you a spot next to me, yeah I won't die to get to mine  
I want this thing alive  
I'll take my paradise on earth, yeah  
I'll make my paradise on earth, oh, oh  
I'll make my paradise on earth  
I'll take my paradise on earth  
I'll take my paradise on earth, yeah  
I'll make my paradise on earth, oh, oh  
I'll take my paradise on earth  
I'll make my paradise on earth
