Party Political

Full Scale

This party is political activity
Back off when you're showing negativity
Look to all your friends for some clarity
'Cause this party is political activity
The democratic public got a war they didn't want
yeah, a dollar
a litre
makes you shit-scared at the pump
where's the P.M's obligation to make
decision's not for some
but for all of us
come with us
What they say
What they do
Must be an election, boo!
Yeah the fear is an infection
So rise above, here comes the flood
Use your voice to show your feelings

It's the liars who'll be kneeling ('cause)
These are simple changes we're asking
Just kick out all the liars and then
re-open the parliament
I can't help but think, drink, smell the stink
hopefully some pen and ink will bring us all back from the brink
Are you scared yet?
Will you take this?
No!
Starting now we swing for justice,
You all party in a state of fear.
Starting now we all swing for justice.
While they all party in a state of fear.
You party.
This party is political activity
