Faded (Remix)

Reek Da Villian

I got a feeling
A real good feeling
I'ma gonna be faded
The bar is opened
We just bought it
I'm gonna be faded
Let the Champagne
If you feel like you want then come get it
niggers can't fuck with it
feel brave in front upon me and get your throat slithered
so addicted to the life I'm in love with it
Getting faded out my mind the patroon did it
fuck friends I got enemies to argue with
fire rounds point blank now my dog is here
black benz big rocks with my necklace on

I've been real since I had the big ... bow
It's the rock star life niggers ...
Party all day and night and folks ...
Don't confuse me baby girl I ain't that nigger
come get a closer look girl I am ... nigger
diamonds on, lights flash when I'm on the scene
I put 2 white goddesses Charlie Sheen
Still winning cars like they're from another world,
Maino, ...nigger and a fucking world
I got a feeling
A real good feeling
I'ma gonna be faded
The bar is opened
We just bought it
I'm gonna be faded
Let the Champagne.
