Give It Up

[Gloria Estefan](#)

There's no wrong and no right
In the heat of the night, just stop thinkin'
You don't care anymore, throw all doubt out the door
And you let goYou may try to fight back by ignorin' the fact
That you want it
But it's harder each day, no more games you can play
To avoid itYou may think you're cool and collected
Obeying all the rules
But when someone's blindin' your senses
You give it up, fall in loveFeel your heart beating fast
Want this moment to last you forever
Feel your throat getting dry
When you find that it's now or it's neverSince you're feeling confused
You no longer can choose and you weaken
Then you finally give in to this urge from within
And it happensYou may think you're cool and collected
Obeying all the rules
But when someone's drivin' you crazy
You give it up, fall in love
Fall in loveYou're gonna fall in love
Fall in love
Love
Love
