

Know It All

Angela McCluskey

I've gotta talk to you today
Can't keep listening to what you say
What you say, what you sayI know it makes my insides crawl
 Think, you think, you know it all
 Know it all, know it allOh God, you're reading Albert Camus
 And there's not much things you can't do
Can't you see they're laughin' at youOh dear, I'm getting weary
 Of the same show every night
It wouldn't be so hard if you weren't so rightI've gotta talk to you today
 Can't keep listening to what you say
 What you say, what you sayI know you can't get over yourself
 It's so hard to listen to someone else
Someone else, someone elseOh God, you're reading Albert Camus
 And there's not much things you can't do
Can't you see they're laughin' at youOh dear, I'm getting weary
 Of the same show every night
It wouldn't be so hard if you weren't so rightOh dear, I'm getting weary
 Of the same show every night
It wouldn't be so hard if you weren't so rightFeel like you're well-meaning
 It's not your fault, I know
 You're on medication
 It's helping you to grow
 Oh noOh dear, I'm getting weary
 Of the same show every night
It wouldn't be so hard if you weren't so rightOh dear, I'm getting weary
 Of the same show every night
 It wouldn't be so hard
 It wouldn't be so hard if you weren't so right
