

Waking

James

Suffer the children who question every value
I spoke with questions, a program to machine
We have a blueprint, the suit don't fit, we've split the seams
Folks are contagious, with thinking up some way
Lies, lies that have choked us
Lies, lies that almost broke us
Brothers, sisters, we've been fooled
They don't want us to fulfill
Just enough to pay your bills
Entertainment, don't [?] We are schooled, we are schooled, to follow the rules
We are schooled, we are schooled, to follow the rules
Words define us, see the world the way we believe
This mirror drives us, we can't get out the way
Lies, lies that have choked us
Lies, lies that almost broke us
Brothers, sisters, we've been fools
They don't want us to fulfill
Just enough to pay your bills
Entertainment, don't [?] We are schooled, we are schooled, to follow the rules
We are schooled, we are schooled, to follow the rules
