

# The Well

## Pedro the Lion

If you could really see then you would ask of me  
She knew the well was far too deep for Him to wet His lips  
But something told her that He spoke of so much more than all of this If you could really see then you would ask  
of me  
When He spoke she wanted to believe the things He said  
But who could this Man be that she might never thirst again Her heart raced  
Could He be The One we've waited for?  
The One we've waited for
