Mirage

Uma

[Verse 1:]I reach out to you, you disappear
I just wanna feel you, you're no longer there
Captivating my every thought
I'll be a fly on the wall, just to hear you talk[Hook:]Knowing you, but not enough
Longing just to feel your touch
Please, don't leave
Stirring on my inner fear
Are you ever really here?
You deceive[Chorus:]Untouchable, intangible
So close, but so far away
Impalpable, imperceivable
You're just a mirage to me[Verse 2:]Wondering, pondering, the way you smell
Will this persistent fear prevail?
Struggling, punishing, dying inside
Thoughts I'm hoping will subside[Hook][Chorus:][Bridge:]Stirring on my inner fear
Are you ever really here?
You deceive[Chorus:][Close:]Light rays bend across my mind
Thoughts array, like decoupage
Phenomenal, deceptive, wonderful lies
You cannot be a mirage
