Not Anymore

Gold City

Verse 1Lost was my story
Curse was my fame
Doom was my destiny
And sin, it was surely my tradeThen light started shining through my darkness
Words cannot express what I saw
God changed me, rearranged me
He gave me life when I gave Him my allChorusNot Anymore will I know how to die
Death lost the battle while mercy survived
Not Anymore will I wonder where I'll be
When the saints are singing around-a Christmas
See, I know I'm not much for nothing
Still its me who's coming back home
Well, I used to be headed for a place called hell
But thank God, I'm not anymore
I'm not anymoreVerse 2Now I'm captivated
By arms of grace
I'm fascinated as to why He'd take my place
On the cross that was built for a sinner
To assure me a life evermore
Crucified there, he died there
So I can live on Heaven's bright shoreChorus (2x)Well, I used to be headed for a place called Hell
But thank God
I'm not anymore
I'm Not Anymore
