Unbroken

The Stranglers

If I lived and breathed before you loved me
I don't recall
If I walked around at all I was in bits and pieces
Of a jagged heart
You kissed me and every piece back into place
Every pain got erased
Held me up to the sunlight
Now it feels like...

[Chorus:]
No one ever left me out in the rain
Cold words that remained unspoken
I never got lost, spent years in the dark
Cause you're here now my heart's unbroken
When I see you smile, feel my soul again
I'm unbroken

If I doubted the power of love baby
Now I understand
I thank God for everyday that you touch me like heaven
Inside your warm hands
In this world sometimes the only thing that's real
Is the way you make me feel
Baby the change is day to night
I swear it's like...

[Chorus]

I still see the night, fell into your eyes
And when we made love it felt like the first time
No one ever left me out in the rain

[Chorus]
