

# Over

## Tove Lo

Stay up 'til dawn  
I can't go home again now  
After tonight  
Seems like I'm out of your life Apologize  
No, it won't make it better  
What can I say?  
It's all too late Tell me, is this the part when  
When we part ways forever  
Tell me, is this the part when  
Part when we are O-O-O-Over  
Wish I was, wish I was  
So-so-so-sober  
Guess we are, guess we are  
Fighting all this fight  
You're so cold without the love  
There is nothing left out of everything we were  
O-O-O-Over  
Guess we are over Walk through the door  
You see that I've been crying  
Head hanging low  
You say "where the fuck have you been?"  
Should I deny  
And maybe dodge this bullet  
You read my mind  
I just can't lie Tell me, is this the part when  
When we part ways forever  
Tell me, is this the part when  
Part when we are O-O-O-Over  
Wish I was, wish I was  
So-so-so-sober  
Guess we are, guess we are  
Fighting all this fight  
You're so cold without the love  
There is nothing left out of everything we were  
O-O-O-Over  
Guess we are over (O-O-O-O-Over)  
(O-O-O-O-Over)  
(O-O-O-O-Over)  
(Over)

Guess we are over I can tell that you know when it kills you  
What you need me to say's gonna hurt you  
Wanna run, but I stay 'cause I have to  
Have to tell you And I know that you're so gonna hate me  
If you did what I did, I would hate you too  
I would hate you too  
And we are Over, over  
Wish I was, wish I was  
So-so-so-sober  
Guess we are, guess we are  
Fighting all this fight  
You're so cold without the love  
There is nothing left out of everything we were  
O-O-O-Over  
Guess we are over (O-O-O-O-Over)  
(O-O-O-O-Over)  
Guess we are over  
(O-O-O-O-Over)  
(O-O-O-O-Over)
