Outta Control

Thousand Foot Krutch

It feels like a dream, how did things all get so crazy?
I'm remembering before when I felt so clean
Alone in my room, it feels like the walls are closing in
I'm thinking of you 'cause I know what'll happen soonI'm spinning out of control
Not knowing which way to go
Feelin' left out in the coldI just wanna let go of it all and climb up over the wall
I need some help to get back on my feet
If you're out there cover meYou thought you could come and take it all without hurting me
That was your biggest mistake
Should have known when you saw me break
Alone in my room I sit and pray that the walls stop closin' in
And every breathe I take's a step further away from the end of meI'm spinning out of control
Not knowing which way to go
Feelin' left out in the coldI just wanna let go of it all and climb up over the wall
I need some help to get back on my feet
If you're out there cover meI wanna get this off my mind
There's no one else I can tell
Please, please listen to me, come listen to meIn a world where confusion is only an illusion
And fear itself is just another weak minded solution
In this generation with too much information
Instead of bonding together we bring anger to the nationMy faith is the only thing I've got
And no one can take that from me
No one will take that
Yes, no one can take that from meI'm spinning out of control
Not knowing which way to go
Feelin' left out in the coldI just wanna let go of it all and climb up over the wall
I need some help to get back on my feet
If you're out there cover meI just wanna let go of it all and climb up over the wall
I need some help to get back on my feet
If you're out there cover me
