

# I Want You

## E-Rotic

But don't you know I want you?Soul to soul  
Can't you see I'm falling?  
Can't you hear me I'm calling  
To reach your heart?Soul to soul  
When the night is burning  
And the shadows are turning  
To make us partBaby, don't cheat me  
And if you need me  
Treat me rightBut don't you know I want you?  
I will keep you from danger if you want me too  
I want you  
If you want me I'll make it, if you want me I'll take it  
All that you're gonna giveDon't you know I want you?  
I will love you forever if you want me too  
I want youIf you want me to reach you, if you want me I'll teach you  
How to love and to live  
Baby, 'cause I want youSoul to soul  
Say you stay forever  
I will make it together through night and day  
Soul to soulWhen the flames get higher  
Feel the heat of the fire  
Don't go awayBaby, don't cheat me  
And if you need me  
Tonight
