

What Side of Love

Parachute

What side of love are you on? (What side of love)
Is it giving you all that you want? (All that you want)
Is it taking you higher?
Are you walking on wire?
What side of love are you on? It will wake you up in the dead of night
When you feel alone it can change your mind
It can tell you every word to say
Whisper when to walk away It can make you feel you're bulletproof
Or can cut you down with the smallest truth
Sometimes it can take control
Sometimes it just lets you go
Ooooh, lets you go What side of love are you on?
Is it giving you all that you want?
Is it taking you higher?
Are you walking on wire?
What side of love are you on? It can light you up it can leave you cold
From the atmosphere to the ground below
If black and white turn into grey
Maybe love is just the same
Ooooh, just the same
So tell me What side of love are you on? (What side of love)
Is it giving you all that you want? (All that you want)
Is it taking you higher?
Are you walking on wire?
What side of love are you on? (What side of love) Ooooh
Don't give up, don't give up on
Ooooh
What we got, what we got, no
Ooooh
Don't give up, don't give up on
Taking sides with me No, you don't have a choice once it's gone
So what side of love are you on
Yeah yeah What side of love are you on? (What side of love)
Is it giving you all that you want? (All that you want)
Is it taking you higher?
Are you walking on wire?
What side of love are you on? (What side of love) Ooooh
Don't give up, don't give up
Ooooh

What we got, what we got

Ooooh

Don't give up, don't give up

What side of love are you on? (What side of love)

What side of love (Don't give up, don't give up)

Don't give up (What we got, what we got)
