

# Evilized

## Tiamat

Born on a gloomy night  
Raised the evil way  
A son of an unnamed  
Born by freak  
Molten books, ancient scripts  
Dreadful tales of evil ways  
Interpreted the child  
Cleanse the world  
When the stars are right  
They will rise from the sea  
Creatures from out of time  
Creatures out of mind  
Sacrifice to the lord  
Light fires upon the hills  
Scream the words, the key  
Prepare the funeral  
Sacrifice yourself to the master  
Sacrifice your soul to the great  
Scream out the words, scream the key  
The demolition prophecies are true  
Behold  
The funeral  
Be evil  
Evilized  
See that  
The world is lost  
It's evil  
Evilized  
Behold the master  
Migrate to the surface  
Wave goodbye to your soul  
and to your mind  
Mind-blasting terror  
Extreme mass manipulation  
will start up the mayhem  
as evil returns  
Rancid bodies dismembered  
Rigid facial expressions  
All covered in blood

Cascades of brains  
Reed deep into the books  
The mayhemic tales of terror  
Horrifying evil visions  
Behold the return  
Sacrifice yourself to the master  
Sacrifice your soul to the great  
Scream out the words, scream the key  
The demolition prophecies are true  
Behold  
The funeral  
Be evil  
Evilized  
See that  
The world is lost  
It's evil  
Evilized
