

Remember Me

[Agnetha Faltskog](#)

As you walk from my side
The tears I try to hide
Are running down my cheek
I find it hard to speak
This is our last goodbye
But darling will you please Remember me from time to time
The one who loves you
Remember me from time to time
I wont forget you
Oh, please remember me
And I'll remember too I watch you walk away
But in my mind you stay
An everlasting dream
To me youve always been
And please dont turn around as you walk away Remember me from time to time
The one who loves you
Remember me from time to time
I wont forget you
Oh, please remember me
And I'll remember too Remember me from time to time
The one who loves you
Remember me from time to time
I wont forget you
Oh, please remember me
And Ill remember too I remember
So please remember
