Be There

Dug Infinite

Little miss laying in the sun
Got a lot on her mind and to get it off her chest
Dreaming to live life out on the west
She don't care what it takes to get there
A little kiss now I'm on the run
Give chase 'till I straight up run out of breath
Pray to god that I'm passing the test
I don't care what it takes to get there
You can stay and I mean it
Every day and I mean it
If there's a way then I'll be there
Bend over backwards I'll be there
I'll be there, I'll be there
Bend over backwards I'll be there
Be there, be there
Bend over backwards I'll be there
A little quick now I jumped the gun
Give it a rest cause she's not just looking for sex
She's a whole level ahead of the rest
I'll just stare if we happen to to get there
Need a fix can you give me some?
Wait a minute so you're not just losing the dress
Keep it moving while I'm holding my breath
We don't care what it takes to get there
You can stay and I mean it
Every day and I mean it
If there's a way then I'll be there
Bend over backwards I'll be there
You can stay and I mean it
Every day and I mean it
If there's a way then I'll be there
Bend over backwards I'll be there
I'll be there, I'll be there
Bend over backwards I'll be there
Be there, be there

Bend over backwards I'll be there
You can stay and I mean it
Every day and I mean it

If there's a way then I'll be there
Bend over backwards I'll be there
I'll be there, I'll be there
Bend over backwards I'll be there
Be there, be there
Bend over backwards I'll be there
From now till forever,
I'll be there for you whenever
To shelter you from the weather
I'll hold you down
I; ll hold you down when you're thinking there's nobody else
I'll be around where you're looking for somebody to help
I'll bend or break over backwards and upside down
Be there like MJ singing it out
You can stay and I mean it
Every day and I mean it
If there's a way then I'll be there
Bend over backwards I'll be there
You can stay and I mean it
Every day and I mean it
If there's a way then I'll be there
Bend over backwards I'll be there
Be there, be there, be there
I'll be there, I'll be there
Bend over backwards, I'll be there
Be there, be there,
From now till forever,
I'll be there for you whenever
To shelter you from the weather
I'll hold you down
I'll be there
