

Punch Drunk Recreation

Jesse McCartney

Don't mess with it, just move with it yeah
Don't mess with it, just move with it unhFaded, stumbling through these ladies
None of them even faze me, hey!
Drinking, sipping that liquor courage
Trying to get Mrs. Perfect, hey!
You don't have to say a damn word, girl
Your body says it all! Girl I've wanted you for the job
We can kick it off with some conversation.
Your face will be fine for tonight
Looking for that day time invitation.
If I just wanna be where we are,
Just a little punch drunk recreation. Don't mess with it, just move with it!
Don't mess with it, just move with it! (Get it now!)
Don't mess with it, just move with it! (That's right!) Baby, better go call that taxi
'Cause we gonna work on that back seat, hey!
Take it, I know just how you want it
When you think in the morning, hey!
You don't have to say a damn word, girl
Your body says it all! Girl, I've wanted you for the job
We can kick it up with some conversation.
Your face will be fine for tonight
Looking for that day time invitation.
If I just wanna be where you are,
Just a little punch drunk recreation. Don't mess with it, just move with it!
Don't mess with it, yeah just move with it!
Take another shot! You get int your house, the party's begun (Let me give a try!)
Got the invitation, I'll be your plus one
Recreational, girl, let's go get us some
Take you back to your place and punch drunk Girl, I've wanted you for the job
We can kick it up with some conversation.
Your face will be fine for tonight
Looking for that day time invitation.
If I just wanna be where you are,
We can kick it up with some conversation
Your face will be fine for tonight
Just a little punch drunk recreation. Punch drunk recreation
Punch drunk recreation
Punch drunk recreation
Punch drunk recreation

Punch drunk recreation
Punch drunk recreation
Punch drunk recreation
Punch drunk
