

# Kiss 'N' Run (1997 Remastered Version)

[Helen Shapiro](#)

Yeah he took my love And ran Ever since this funny old world began  
Ever since a woman first met a man The only fella under the sun  
Is the one who?  
Il kiss and run Ever since old Adam first met poor Eve  
Women sit and cook and whine and men deceive But girls are growing up  
now they can have fun With someone who?  
Il kiss and run But you, wonderful you You wouldn't cheat,  
whatever you do And I know come rain or shine I? Il be yours and you?  
Il be mine Oh when I cuddle closer in your embrace I know love then face to face  
My heart is beating madly oh honey There? s no one who?  
Il kiss and run But you, wonderful you You wouldn't cheat,  
whatever you do And I know come rain or shine I? Il be yours and you?  
Il be mine Oh when I cuddle closer in your embrace I know love then face to face  
My heart is beating madly oh honey There? s no one who?  
Il kiss and run
