

# Before the Night Ends

## Yanni Voices

I close my eyes to see the world  
I close my eyes so that it won't hurt  
I'm sailing on blue oceans  
Flying to you...HighI catch my breath under the full moon  
A star that shines; so pleased to meet you  
Maybe I'll dream forever  
I'd like to love right hereBefore the night ends  
And another new day dawns  
How I hope; how I hope  
That out of this endless blue  
Somehow I will find you  
Before the night ends  
Before the night endsI made a choice more than a few times  
To walk a road that didn't turn out so right  
But I wanna go the distance  
I'd like to love right hereBefore the night ends  
And another new day dawns  
How I hope; How I hope  
That out of this endless blue  
Somehow I will find you  
Before the night ends  
Before the night endsClose my eyes  
Never gonna let up  
Ah....ah... ooh  
Before the night ends ah ah  
I hope I find you
