## Hercules and Love Affair

Someone's always telling me I'm no good  
Well I don't care what you say  
Someone's always giving me a hard time  
Well I live day to day  
Someone's always putting me in my place  
Like I don't know where I am  
So I'll just sit here in the corner without any direction Maybe it's all it's all in my head  
I think that it's something something you said  
I understand some things will never change (Never Change)  
Never change Someone's always kicking me to the curb  
Well it's grinding up my face  
Someone's always pushing me to the side  
Like I'm standing in the way  
Someone's always getting up in my face  
Like I don't know who I am  
So once again I'm in the corner without any direction Maybe it's all it's all in my head  
I think that it's something something you said  
Understand some things will never change (Never change, Never change)  
Somebody's always out to get me  
Somebody's always trying to kill me  
Understand some things will never change (Never change, Never change) Why did you have to go and change?  
Couldn't you just have stayed the same?  
Why did you have to go insane?  
Understand some things don't change  
Never change  
No they don't No they don't Don't change Maybe it's all it's all in my head  
I think that it's something something you said  
Understand some things will never change  
Somebody's always out to get me  
Somebody's always trying to kill me  
Understand some things will never change Why did you have to go and change?  
Couldn't you just have stayed the same?  
Why did you have to go insane?  
Understand some things don't change  
Why did you have to go and change?  
Couldn't you just have stayed the same?  
Why did you have to go insane?  
Understand some things don't change Some things will never change  
Some things never change

Some things never change  
Never change
