

# Disappointed

## Face to Face

Reality is what you want to see  
It shouldn't make a difference to me  
I put my trust in what you had to say  
It didn't make a difference anyway I know you've tried your "very best"  
And I'm so glad  
Thank you so much Disappointment is what you've made this  
Expectations overrated  
Disappointment is what you've made this  
My ambition is so deflated Reality is different for me  
My eyes are opened wide enough to see  
I've listened to your explanations why  
The more you fail, the harder that I try
