

# When You Need My Love

[Darryl Worley](#)

Two in the morning telephone rings  
Somehow I knew who it was  
'Cause, baby, it's always the same old thing  
When you need my love You say it's over again and again  
This time you've had enough  
Girl, I know you've been fighting with him  
When you need my love Oh I wish I could just say no  
And get you out of my heart  
It must be nice to have some place to go  
When your world falls apart He'll call tomorrow with the same ol' line  
And you'll forget about us  
And I'll be lonely until the next time  
When you need my love Oh I wish I could just say no  
And get you out of my heart  
It must be nice to have some place to go  
When your world falls apart Now someday someone's gonna love me true  
And, baby, when she does  
Then I wonder what you're gonna do  
When you need my love Yeah, then I wonder what you're gonna do  
When you need my love, when you need my love  
When you need my love, what are you gonna do?
