

Stormfront

RollerBlue

It looks like wild weather
On your storm front tonight
But right now your coast is clear
It's turning into light
And by any measure
Your journey will be bright
You'll slay those foes along the way
I'm sure you'll win the fightChorus
Sounds as though you've been there before
Get up, go on, get up go on
What is stopping you this time
Get up, go on, get up go onIt looks like wild weather
On your storm front tonight
But right now your coast is clear
It's turning into light
You'll see at your leisure
Your goal is in your sights
You've got the goods to pay your way
I'm sure you will be rightChorusIt looks like wild weather
On your storm front tonight
But right now your coast is clear
It's turning into lightChorus
