Eat Yourself

[Goldfrapp](#)

If you know me good
See it now, the blade is deep
You could loathe the lie
Seen in all that now
You went south on the train
She wore plastic boots for rain
And you'd crawl along if you know that your Juliet is calling
Who will I be when I'm with you again?
Silver jet in the sky, you are the pain
Got a song, got to sing for life
If you know me good
See it now, the blade is deep
If you don't eat yourself
You will explode instead
'Cause I never loved you so
When I know you don't love me
You wore the lies till their worn
Get wicked, get it done
Who will I be when I'm with you again?
Silver jet in the sky, you are the pain
Got a song, got to sing for life
