

She

Keyshia Cole

Don't treat me like no angel
You know that I can be a lot to handle
When I'm high off of you...
High off of you
High off of you
High off of you
Oh you do me like I'm your drug
You're like poison on the tip of my tongue
And I'm High off of you
High off of you
High off of you
High off of you

Spending days
Going at it now
Never been fooled away
Down to try something different
Lips and legs, soft skin so feminine
Curves like me, covered in my cherry scent

Them boys loves some you
But I ain't mad 'cause you look good on me too
On me too
Them boys loves some you
But I ain't mad 'cause you look good on me too
She look good to me too

Don't treat me like no angel
You know that I can be a lot to handle
When I'm high off of you...
High off of you
High off of you
High off of you
Oh you do me like I'm your drug
You're like poison on the tip of my tongue
And I'm high off of you
High off of you
High off of you

High off of you

It's going to ignite
Fingers up and down my legs
Feel like mine
Getting high off my oyster plat
Feels so right
Being on is just how I like doing you
I'll be covered in my cherry scent

Them boys loves some you
But I ain't mad 'cause you look good on me too
On me too
Yeah, them boys loves some you
But I ain't mad 'cause you look good on me too
She look good to me too

Don't treat me like no angel
You know that I can be a lot to handle
When I'm high off of you...
High off of you
High off of you
High off of you
Oh you do me like I'm your drug
You're like poison on the tip of my tongue
And I'm high off of you
High off of you
High off of you
High off of you
