

More Than Enough

New Life Worship

Glory, we want to see Your glory
The power of the true King
Reigning in this place
Hungry, Jesus we are hungry
Turn Your face upon us
Oh we long for You
Only You are able
Only You can satisfy
Great in power
Great in splendor
Great in wonder
More than enough
Strong and able
True and faithful
Jesus Savior
More than enough Broken, sinful and defeated
You restored and freed us
And brought us into grace
Only You are able
Only You can satisfy
Only You break every chain
Your love is strong enough
You're strong enough
Only You wash away sin
Your grace is deep enough
It's deep enough Only You conquer the grave
You are alive in us
Alive in us
