Follow Me

Raining Jane

Sudden impact
Crashes on me
I'm aware that
The end is coming Rocky Mountains
School bells chime
In one hour from now
No eyes will be dry
No this can't be the way
Why did I follow you?
This can't be the way
Why did I follow?
We fall apart to come together
Patriots in stormy weather
Ligth changes as you leave your mark
Humanity is lost in the dark
Sweeping plains
Homemade bombs
Field of empty chairs
Leaves empty arms
This can't be the way
Why don't you follow me?
This can't be the way
Come on and follow
We fall apart to come together
Patriots in stormy weather
Light changes as you leave your mark
Humanity is lost
This can't be the way
This can't be the way
This can't be the way
(Follow me, follow me)
We fall apart to come together
We fall apart to come together
Come together, come together, come together
Yeah we come together
Reach the higher ground
Come together
