

What Cha' Gonna Do For Me

Chaka Khan

All night and day
Just chippin' away
It's all in a day's work
Tryin' hard to defend
The time that I spend alone
The crown that you lose
Exploiting the blues
Won't get the job done
As hard as it bites
I'm keepin' my sights on you
CHORUS:
What cha' gonna do for me
What cha' gonna do for me
What cha' gonna do for me
When the chips are down
In the cool of the night
When nothing seems right
The feeling can take you
Strange as it seems
You make your own dreams come true
If you try to conceal
The way that you feel
You're asking for trouble
Just as sure as I cry
I'm keeping my eye on you
CHORUS (2x)
You don't have to tell me
I'm to blame for this
'Cause what you hold against me
Is what I miss
