

Nothing Broken But My Heart

Celine Dion

Have been over you for some time now Baby
I don't miss your kiss like before now, any more now
If you ask me how I'm doing, I'm fine
All I needed was a little time
So if u think that I still need you Baby,
I really don't know why

Chorus

Oh, Baby, since you left me, you might think that my world's been torn apart
But if you see me, may be you'll see that nothing broken,
Nothing broken but my heart

You won't find no tears, in my eyes now Baby
If you think I'm sad that your gone now, then you're wrong now
If you ask I'll say I'm happy and free
Tell you that's the way I wanna be
And all those nights we shared together Baby,
Well they don't mean a thing

Chorus

So if you think that I still need you Baby
I don't think about you I'm happy now without you

Chorus

You might think, you might think my world's been torn apart
Nothing broken, nothing broken but my heart

Nothing broken but my heart
